

- **Recycling is good for everyone!** -

In 2008 we created a network for the collection of different materials which, once sent for recycling with its environmental benefits, it became a source of self - financing to the association.

We collect:

- **PLASTIC CAPS**, which will become new chairs, tables, fruit boxes, pots etc...;
- **CORK STOPPERS**, collaborating with the cooperative Estia of the jail in Bollate, the Center of Research of Sardinia, WWF Italy and Amorim Cork Italy

we
can both help

the
Sardinian
cork fields to survive
and give
new life to the caps
collected as
acoustic
insulation
for green building
;

- **ALUMINUM OBJECTS**. Incorporated into the project of CONSORZIO IMBALLAGGI
ALLUMINIO dedicated to non-profit
organization
